3. Payment Terms

Net 30 days from invoice date for established accounts with approved credit

Net 15 days for new accounts (first 3 orders)

Prepayment required for orders under \$500 list value

2% early-payment discount if paid within 10 days

Letter of credit accepted for orders exceeding \$25,000

4. Freight and Handling

Domestic US orders over \$2,000 list value: freight prepaid and added to invoice. International orders: freight collect unless CIF or DDP terms are agreed. Rush manufacturing surcharge: 25% for orders requiring <2 week lead time.

5. Custom and Non-Standard Pricing

Custom dimensions, compositions, or quantities below standard MOQ are priced on a case-by-case basis. Custom pricing includes a one-time tooling/setup fee and a per-unit premium of 30-60% over standard pricing depending on complexity. All custom pricing is valid for 30 days from quotation.

6. Regional Adjustments

List prices are adjusted for regional markets to reflect local competitive conditions, currency, and distribution costs. Contact your regional sales representative for applicable pricing in your market. Regional price lists are issued semi-annually.

7. Price Review Process

ForgeCore reviews pricing annually in February, with new prices effective 1 April. Material cost changes (silicon carbide, graphite, zircon, energy) exceeding 5% may trigger mid-year adjustments. Customers with annual contracts receive price protection for the contract term.
